PREAMBLE

- A. U SPORTS expects that all participants including Member Institutions, Regional Associations, Directors of Athletics (or equivalents), coaches, officials, student-athletes, administrators, Institution Representatives, volunteers, and others connected to our athletic programs and events uphold our core values of honesty, integrity, fair play, sincerity and honourability. All participants shall accept and actively encourage compliance with both the spirit and the letter of the rules governing U SPORTS, and shall ask for clarity on or interpretation of any rule regarding which there is uncertainty. An accepted element of the spirit of those rules is that any suspected violation be brought forward as a Complaint or be brought to the attention of the alleged violator as soon as possible, and that intentionally withholding such suspicion until a later date is against the spirit of the rules.
- B. As a legal entity, U SPORTS has the authority to establish policies to govern its own affairs and to prescribe, monitor and enforce the conduct of its Member Institutions and the conduct of other individuals involved directly or indirectly in U SPORTS activities pursuant to such policies.
- C. No action or legal proceeding may be commenced against U SPORTS in respect of a dispute unless U SPORTS has refused or failed to provide or abide by the appeal process as set out in U SPORTS' policies and all remedies available under these policies has been exhausted.
- D. National competition for university athletes is administered by U SPORTS. The athletes participating represent the highest competitive level of university competition in their sport. It is to be considered an honour and a privilege to participate in U SPORTS events and to be a U SPORTS registered athlete.
- E. U SPORTS reserves the right to govern its competition and, in doing so, to demand prerequisites from the athletes and institutions. U SPORTS attempts to provide a reasonable level of fairness of competition within the framework of U SPORTS Championships.
- F. U SPORTS conducts national competition for its members. U SPORTS will not be accountable for extraordinary requirements, beyond those identified as U SPORTS prerequisites, which are imposed by a Regional Association.
- G. It is the moral and ethical responsibility of the Director of Athletics and the coach to be completely cognizant of the spirit and intent of all Eligibility Rules governing interuniversity sport and it is their professional responsibility to convey to all athletes the rationale and philosophical persuasion of any rule in question.

40.10.1 PRINCIPLES

The following principles are observed in the formulation of U SPORTS eligibility rules:

- 40.10.1.1 U SPORTS shall promote ethics, fairplay, and the opportunity for all eligible athletes to participate in interuniversity sport while pursuing their education.
- 40.10.1.2 All athletes must be demonstrating progress towards furthering their education and maintaining academic success.
- 40.10.1.3 Only Regional Association representatives (team and individual) and/or institutional representatives may enter into competition with one another in U SPORTS Championships.
- 40.10.1.4 Athletes are eligible according to acceptable course load standards as established by U SPORTS.
- 40.10.1.5 Authority for accepting an athlete as eligible rests with U SPORTS.
- 40.10.1.6 U SPORTS reserves the right to interpret and apply the Eligibility Rules and to impose penalties on athletes and members for breaches of the Eligibility Rules.
- 40.10.1.7 U SPORTS competitions shall include only athletes acceptable to U SPORTS as eligible.
- 40.10.1.8 The length of time an athlete may participate in U SPORTS competition shall be restricted.
- 40.10.1.9 U SPORTS supports the provision of benefits to athletes according to acceptable ethical practices (and within guidelines established by U SPORTS).

40.10.2 GENERAL ELIGIBILITY

40.10.2.1 Jurisdiction of Rules

40.10.2.1.1 U SPORTS Eligibility Rules

- 40.10.2.1.1.1 These rules shall apply to all athletes participating in U SPORTS competition, inclusive of Regional Association, Conference and non-Conference competition in any sport in which U SPORTS recognizes, conducts and awards a national championship. Additionally, these rules shall apply to all athletes participating on behalf of their institution in non-U SPORTS sports that are considered as equivalent to a U SPORTS sport. Member institutions are required to confirm with their respective Eligibility Review Officer as to the application of these rules to sport participation on behalf of the institution that could be considered similar in nature to a traditional U SPORTS sport. Presently this list includes, but is not limited to: 11-aside indoor soccer; outdoor track & field disciplines; NCAA sand volleyball; and greco-roman wrestling.

- 40.10.2.1.1.2 With respect to non-conference (exhibition) competition in a recognized team sport of U SPORTS (basketball, field hockey, football, ice hockey, rugby, soccer, volleyball) during the same academic year that the institution is registered for that team sport, please note the following:

- 40.10.2.1.1.2.1 when athletes utilize either the traditional name or uniform of the institution's U SPORTS team while participating on behalf of their institution in a club or community league, U SPORTS rules shall apply.

40.10.2.1.1.2.2 when athletes do not utilize the traditional name or uniform of the institution's U SPORTS team while participating on behalf of their institution in competition, U SPORTS rules shall apply, with the following exceptions:

- i) If the competitions of the athletes occur out of season (that is, subsequent to the last U SPORTS competition for the athletes in a given academic year and prior to August 15 of the same academic year), and the competitions are part of a recognized league that is sanctioned or affiliated by the respective provincial sport organization or equivalent.
- ii) If all the participating athletes are distinct from the institution's U SPORTS team.

40.10.2.1.2 Regional Association Rules

40.10.2.1.2.1 Any deviations from U SPORTS Eligibility Rules made by Regional Associations or institutions may only be of a more stringent nature.

40.10.2.1.2.2 The recognized Regional Associations of U SPORTS include:

- 1) Atlantic University Sport
- 2) Réseau du sport étudiant du Québec
- 3) Ontario University Athletics
- 4) Canada West

40.10.2.1.3 Member Institution Responsibility

40.10.2.1.3.1 The institution, inclusive of administrators and coaches and student-athletes, is responsible for placing only U SPORTS eligible athletes into U SPORTS competition.

40.10.2.2 Application of Eligibility Rules to New Sports Recognized by U SPORTS

Where a new sport is adopted as a recognized sport of U SPORTS, these Rules shall have effect on the eligibility of an athlete to participate in the new sport only from the first day of registration for the academic year next following the adoption of the new sport.

40.10.2.3 Application of Eligibility Rules to New Teams of Current Members

In the academic year immediately preceding a current member's declaration of participation in a U SPORTS recognized sport, for the first time, and the respective team is competing under the traditional school name or uniform, the entirety of Policy 40 – Eligibility Rules shall have effect, with the exception of 40.10.4.1 (post-secondary participation). Notwithstanding the non-application of 40.10.4.1, a student-athlete who wishes to transfer to another U SPORTS school in the immediately subsequent academic year is still subject to the transfer rule.

40.10.2.4 Application of Eligibility Rules to New Members

In the academic year a university becomes a member (probationary or otherwise) of a Regional Association, the respective teams that compete under the traditional school name or uniform of the new member shall be subject to the entirety of Policy 40 – Eligibility Rules, with the exception of 40.10.4.1 (post-secondary participation and the

charging of eligibility) in certain instances. In the event a team is already participating within a jurisdiction that charges eligibility, U SPORTS will recognize the consumption of eligibility within that jurisdiction in accordance with that jurisdiction's rules. Irrespective of the application of 40.10.4.1 and the charging of eligibility, a student-athlete who wishes to transfer to another U SPORTS school shall be subject to the U SPORTS to U SPORTS transfer rule.

40.10.3 ACADEMIC REQUIREMENTS

40.10.3.1.1 Academic Year

An academic year is defined as being 365 consecutive days calculated from the first day of fall classes as set out in a member institution's official calendar. A year is defined as a period of 365 consecutive days. In the instance of a leap year, the number of consecutive days shall be 366.

40.10.3.1.2 Academic Transcript

40.10.3.1.2.1 A student's academic transcript, from the institution he/she is representing, is the official record to be used when determining and monitoring a student's status with respect to U SPORTS Course Load requirements and Academic Standing Requirements.

40.10.3.1.2.2 Online and correspondence courses can contribute to U SPORTS Course Load requirements and Academic Standing requirements provided the course is both completed and recognized for credit on a student's transcript within the academic semester (for half-year courses) or year (for full-year courses) the course is initiated.

40.10.3.1.2.3 In recognition that certain full-time post-degree programs are not recognized for credit on a student's academic transcript, the Eligibility Committee will review such programs on request to determine if the course credits can contribute to U SPORTS Course Load and Academic Standing requirements.

40.10.3.1.3 Integrated Academic Programs ~ College and University

A student-athlete has the opportunity to participate with a U SPORTS member institution in a U SPORTS sport while attending a college provided the student is registered in an integrated academic program between the college and the respective U SPORTS member university, subject to all U SPORTS regulations. There are three guidelines utilized to determine if an "integrated academic program" exists:

- i) A student-athlete is at all times registered in a degree-granting program, and
- ii) The program requires a student-athlete to attend both partner institutions in order to complete the degree; the degree cannot be completed in total at just one of the partner institutions, and
- iii) The President or designate of each of the colleges and universities participating in the program must confirm in writing that the program is an integrated academic program.

40.10.3.1.4 Integrated Academic Programs ~ Multiple Universities

A student-athlete has the opportunity to participate with a U SPORTS member institution in a U SPORTS sport while attending a different university provided the student is registered in an

“integrated academic program” between the respective U SPORTS member universities, subject to all other U SPORTS regulations inclusive of the transfer rule.

There will be one guideline utilized to determine if an “integrated academic program” exists:

- The President or designate of each of the universities participating in the program must confirm in writing that the program is an “integrated academic program”, for the purpose of this regulation.

40.10.3.2 Course Load Requirements

40.10.3.2.1 A student-athlete must be enrolled in a minimum of three (3) courses recognized towards a degree (minimum 9 degree-granting credit hours or equivalent as confirmed by the registrar) in the semester in which they are competing within U SPORTS, unless there are circumstances within their academic program which would warrant an exception to this ruling and in which the university continues to declare this individual a full-time student in that semester (such as graduate students as per 40.10.3.5, exchange students as per 40.10.3.3.8, registered special needs students as per 40.10.3.2.2, and co-op students as per 40.10.3.2.3).

The student-athlete’s academic transcript, from the member institution he/she is representing, must recognize all degree-granting semester hours that are applied to Course Load Requirements (reference Policy 40.10.3.1.2).

Athletic participation during the time period beginning on August 15 and ending at the conclusion of December 25 of the same calendar year (the "Fall Period"), is subject to Course Load Requirements of the September-December academic semester encompassed by that Fall Period. Athletic Participation during the time period beginning on December 26 and ending at the conclusion of August 14 of the next calendar year (the "Winter/Spring Period") is subject to the Course Load Requirements of the January-April academic semester encompassed by that Winter/Spring Period."

40.10.3.2.2 A Special Needs student-athlete must be enrolled in a full-time degree-granting course load (or full-time equivalent as defined by their institution as a Special Needs Student), or minimum nine degree-granting credit hours in the semester in which they are competing. A Special Needs student must be formally designated as such by the institution’s Special Needs department or equivalent.

40.10.3.2.3 A student-athlete registered in a co-op program and on a recognized work term that (i) is a recognized component of their academic program and / or (ii) is recognized for university credit, will be eligible to participate for that institution in that semester and provided the university continues to declare the individual as a full-time student in that term.

40.10.3.2.4 An exception to rule 40.10.3.2 will be made allowing any U SPORTS swimmers meeting the following criteria to be registered in a minimum of 3 degree-granting credit hours at their U SPORTS institution at the time of their U SPORTS participation during the 2020 winter semester:

- Any swimmer who achieves a long-course pool result within Olympic Selection Time (OST) subsequent to September 2018; or
- Any Open Water swimmer meeting the following criteria:

- a. Selected by FINA for the 2020 Olympic Open Water 10K event by finishing Top-10 at the 2019 World Championships; or
- b. If spots for selection of Canadian swimmers by FINA for the 2020 Olympic Open Water 10K remain open following the 2019 FINA World Championships, a swimmer that finished in the Top 6 at the 2019 Canadian Open Water Trials.

40.10.3.3 Academic Standing

- 40.10.3.3.1 A student-athlete who successfully complete a minimum of three degree-granting full courses, or degree-granting six half courses, or eighteen degree-granting semester hours during the academic year at a degree granting institution, is for the purpose of this rule, a student in good standing for that academic year, unless there are circumstances within their academic program which would warrant an exception to this ruling and in which the university continues to declare this individual a full-time student (such as graduate students as per 40.10.3.5, registered special needs students as per 40.10.3.3.3, and co-op students as per 40.10.3.2.3).

The member institution registering the U SPORTS student-athlete must recognize all degree-granting semester hours that are applied to the 18 semester hour requirement (reference Policy 40.10.3.1.2).

In the case of a student-athlete transfer from another post-secondary institution (excluding CEGEP) to a U SPORTS member in the same academic year, the degree-granting credits earned at the originating institution, plus any new degree-granting credits earned at the U SPORTS member that the student-athlete will eventually represent in competition, contribute to the 18 semester hour requirement for the academic year.

- 40.10.3.3.2 In order to be eligible for U SPORTS competition, a student-athlete who has attended and been charged with a year of eligibility in a recognized sport of U SPORTS at a degree-granting post-secondary institution must have been a student in good standing in that year, as per 40.10.3.3.1, in his or her final year as a student-athlete at their previous institution.
- 40.10.3.3.3 A Special Needs Student must successfully complete either a full-time degree-granting course load (or full-time equivalent as defined by their institution as a Special Needs Student), or minimum eighteen degree-granting credit hours in order to be eligible for the following year. A special needs student must be formally designated as such by the institution's special needs department or equivalent.
- 40.10.3.3.4 Any student-athlete who is ineligible to compete in U SPORTS competition because the athlete is no longer a student in good standing, must successfully complete within an academic year; three degree-granting full courses, or six degree-granting half courses, or eighteen degree-granting semester hours at a recognized post-secondary institution where courses are recognized for credit at the member institution registering the U SPORTS athlete. The student-athlete is eligible for participation immediately upon successful completion of the above academic requirements.

- 40.10.3.3.5 Any student-athlete who has been required to withdraw by their institution can compete immediately upon successfully completing 18 degree-granting credit hours within an academic year at any post-secondary institution where courses are recognized for credit at the member institution registering the U SPORTS athlete. Exception: Any student-athlete who successfully completes 18 degree-granting credit hours, but is required to withdraw by their institution for academic reason, will be eligible upon re-admittance to any member institution, subject to the transfer rule if applicable.
- 40.10.3.3.6.1 Subject to Policies 40.10.3.3.4 and 40.10.3.3.5, a student-athlete transferring from a non-degree granting institution (excluding CEGEP student-athletes) to a U SPORTS member institution, is considered to be a student in good standing if the student has achieved the following:
- i. a minimum 60% average on those courses utilized to determine the student's university admission; and,
 - ii. successfully completed a minimum of three full courses, or six half courses, or eighteen semester hours during their most recently completed academic year, or the most recent academic year he/she was a student-athlete at their previous institution; and,
 - iii. specific to CCAA student-athletes, has also maintained their academic eligibility in the CCAA.

Please reference Policies 40.10.5.7.1 and 40.10.5.7.2 for additional non-academic regulations associated with these student-athletes.

In those instances when a student-athlete has been accepted into a U SPORTS member institution but has not achieved the 60% requirement, or has not maintained their academic eligibility in the CCAA, the student-athlete must successfully complete 9 degree-granting credit hours or equivalent in a single semester prior to becoming eligible to participate.

In those instances when a student-athlete has been accepted into a U SPORTS member institution but has not achieved the 18 degree-granting semester hour requirement at their previous institution, the student-athlete must do so at their U SPORTS institution prior to participation.

- 40.10.3.3.6.2 Subject to Policies 40.10.3.3.4 and 40.10.3.3.5, a student-athlete transferring from a CEGEP to a U SPORTS member institution, is considered to be a student in good standing if the student has achieved a minimum 60% average on those courses utilized to determine the student's university admission and has maintained their academic eligibility in the RSEQ.

In those instances when a student-athlete has been accepted into a U SPORTS member institution but has not achieved the 60% requirement while maintaining their academic eligibility in the RSEQ, the student-athlete must successfully complete 9 degree-granting credit hours or equivalent in a single semester prior to becoming eligible to participate.

In those instances when a student-athlete has been accepted into a U SPORTS member institution but has not maintained their academic eligibility in the RSEQ (as evidenced by being listed on the RSEQ ineligible list), the student-athlete must successfully complete 18 degree-granting credit hours or equivalent within

an academic year prior to becoming eligible to participate. The student-athlete is eligible immediately upon successful completion of the above academic requirements.

- 40.10.3.3.7 A student-athlete who enrolls in post-secondary education (excluding CEGEP) for the first time at any U SPORTS member institution in January, and who successfully completes a minimum of three degree-granting half courses or nine degree-granting semester hours prior to the first of September of the following academic year, is a student in good standing. Specific to men's hockey, a student-athlete who has previously enrolled as a part-time student at a post-secondary institution while concurrently playing within the Canadian Hockey League, and who has not previously participated with another post-secondary team, shall also qualify for this academic accommodation of requiring the successful completion of three degree-granting half courses or nine degree-granting semester hours prior to the first of September of the following academic year when they enroll for the first time in January at any U SPORTS member institution. In all other instances, if an individual has previously enrolled in a post-secondary institution previously, either full-time or part-time, this accommodation is not available to them.
- 40.10.3.3.8 A student-athlete officially classified by a member institution as an academic exchange student shall be exempt from the applicable transfer rule (40.10.5.7.3) and academic standing rule (40.10.3.3.2) so that they can be immediately eligible to participate in U SPORTS competition for one competitive season at the U SPORTS institution they are attending as an exchange student, subject to all other regulations. The requirements of regulation 40.10.5.7.3 (non-Canadian degree granting transfer students) would be applied in the student-athlete's second competitive season in the event he/she remains at the U SPORTS institution.
(note 1: An exchange student is a student who is involved in an established academic exchange program between a U SPORTS member institution and a non-Canadian post-secondary degree-granting institution.)
(note 2: in those instances where a U SPORTS student-athlete participates with a non-Canadian post-secondary degree-granting institution while classified as an academic exchange student, all eligibility regulations apply with the exception of the transfer rule, i.e. the student-athlete does not have to sit out 365 days when they return from their exchange school to their original U SPORTS school).
- 40.10.3.3.9 Any athlete officially classified by a member institution as a visiting student, shall be subject to all Eligibility Rules at the institution they are attending as a visiting student, inclusive of the transfer rule, for one competitive season at the U SPORTS institution they are attending as a visiting student. Student-athletes attending as a visiting student may use the academic transcript from both the institution they are attending as a visiting student and the institution they originated from to meet Academic Standing requirements.
(note 1: a visiting student is a student who is taking courses at one institution which leads to a degree at another institution.)

40.10.3.4 Graduating Year

An athlete who completes a degree during a previous academic year is eligible to participate in U SPORTS competition notwithstanding that the athlete did not, during that previous academic year, successfully complete sufficient courses to maintain the status of "student in good standing". This shall be a one-time allowance.

40.10.3.5 Graduate Student

An exception to 40.10.3.2 (Course Load) and / or 40.10.3.3 (Academic Standing) is available to an athlete registered as a full-time student in any graduate program offered by a member institution.

40.10.3.5.1 A student-athlete, who enrolls in either a doctorate or master's degree at a member institution, and who attended another institution the previous academic year in an undergraduate (or equivalent) program, shall retain any available U SPORTS eligibility to participate immediately. This shall be a one-time allowance. This accommodation is also available to a student-athlete who enrolls in any of the following designated programs:

- Bachelor of Law(s)
- Doctor of Dental Medicine
- Doctor of Dental Surgery (DDS)
- Doctor of Medicine (MD)
- Doctor of Optometry
- Doctor of Pharmacy (PharmD)
- Doctor of Veterinary Medicine
- Juris Doctor (JD)
- Additional programs may be considered upon request of the U SPORTS Eligibility Committee.

40.10.4 ATHLETIC REQUIREMENTS

40.10.4.1 Post-Secondary Participation (conference and non-conference)

40.10.4.1.1 The appearance of the name of an athlete on any score sheet or final entry form or results sheet or equivalent, within U SPORTS, shall be deemed participation in that game or competition for which the athlete was registered.

40.10.4.1.2.1 Specific to wrestling and the appearance of the name of an athlete on an Eligibility Certificate, the appearance of the name of an athlete on any entry form or results sheet (or equivalent) prior to their Conference Championship (or equivalent) shall be deemed as participation in that competition for which the athlete was registered. This includes any competition where the athlete was registered as a club wrestler (or equivalent). Further, with the exception of the U SPORTS National Championship and the Conference Championship (or equivalent), all competitions are considered to be non-conference (exhibition) competitions.

40.10.4.1.2.2 Specific to indoor track & field and the appearance of the name of an athlete on an Eligibility Certificate, the appearance of the name of an athlete on any entry

form or results sheet (or equivalent) between November 1 and the U SPORTS National Championship shall be deemed as participation in that competition for which the athlete was registered; and the result of that competition be recognized for national ranking and qualification purposes. This includes any competition where the athlete was registered as a club athlete (or equivalent). Further, with the exception of the U SPORTS National Championship and the Conference Championship (or equivalent), all competitions are considered to be non-conference (exhibition) competitions.

40.10.4.1.3 Within U SPORTS, an athlete shall be charged with a year of eligibility for each year of competition where the athlete participated in any one of the following:

a) With the exception of curling, participation in three or more non-conference competitions or tournaments, wherein any number of competitions that occur during three consecutive days shall count as one non-conference competition for the purposes of this rule. This includes participation within a club or community league, beyond U SPORTS conference competition, during the academic year.

Specific to the sports of cross-country running, wrestling, track & field, and swimming, all competitions outside a U SPORTS Championship or Conference Championship (or equivalent) are considered to be non-conference competitions for the purpose of this rule.

Exception: see Scrimmage Exemptions

b) In the sports of basketball, field hockey, ice hockey, soccer, and volleyball, participation in any conference competition if there is a non-conference schedule (excluding scrimmages captured in the scrimmage exemptions below) in that sport as determined by the institution, irrespective of the participation of the student-athlete in the non-conference schedule.

c) Specific to the sport of Soccer participation in 11vs.11 non-conference soccer between the end of the U SPORTS Soccer Championships and August 15th (or earlier if a successful application is made) of the following year will not count towards an eligible student-athletes participation count for the purposes of eligibility. All other U SPORTS rules apply.

d) In the sports of football and rugby, and where a team has a one-game or event exhibition schedule (excluding scrimmages captured in the scrimmage exemptions below), a student-athlete may participate in one regular season game without consuming a year of eligibility.

e) In the sports of basketball, field hockey, football, ice hockey, rugby, soccer, and volleyball, participation in two or more conference competitions if there is no non-conference schedule (excluding scrimmages captured in the scrimmage exemptions below) in that sport as determined by the institution.

f) Applicable to all sports, any participation in a conference playoff, regional qualifying event or conference-specific competitive structure that determines qualification to a U SPORTS Championship.

g) Applicable to all sports, any participation in a U SPORTS Championship.

Scrimmage Exemptions

Scrimmages are seen as valuable practice activity, and in the sports of basketball, field hockey, football, ice hockey, rugby, soccer, and volleyball, scrimmage activity between a U SPORTS varsity team and another team/or group of individuals are permissible and as long as they meet the following conditions do not count towards a student-athlete's participation threshold.

- a. As a practice event, the following scrimmage conditions need to be in place
 - i. Practice gear and not team uniforms are utilized;
 - ii. Scrimmage provides for coaching intervention during the activity, the game does not follow traditional time clock;
 - iii. Scrimmage takes place under practice conditions, and there is no promotion of the event, admission charged, or result reported.
- b. Only students that meet practice criteria are eligible to participate.
 - 1) In season - declared student athletes, and students registered at your University.
 - 2) Out of Season - declared student athletes, and students registered at your University, and confirmed recruits.
- c. All recruiting regulations are followed

A U SPORTS team participating against another U SPORTS team where an official is officiating is considered non-conference competition, conference competition, conference playoff, regional qualifying event or conference-specific competitive structure that determines qualification to a U SPORTS Championship or U SPORTS Championship, and not a scrimmage.

- 40.10.4.1.4 If a U SPORTS student-athlete suffers a season-ending injury or illness after surpassing current eligibility thresholds outlined in rule 40.10.4.1.2.1, the school, on behalf of the student-athlete, may request relief of the rule by submitting a Season-Ending Injury Form (40.20.2.7) as per the parameters established in 40.20.2.6.

A student-athlete who has his/her season-ending injury application upheld continues to be subject to U SPORTS Eligibility Requirements, including Academic Standing Requirements and the traditional transfer rule. The same applies to medical hardship waivers, or equivalents, provided within another post-secondary jurisdiction.

- 40.10.4.1.5 Within another post-secondary jurisdiction (national, regional, or provincial) in the United States or Canada, an athlete shall be charged with a year of eligibility in a U SPORTS recognized sport in accordance with that jurisdiction's regulations. If the jurisdiction does not charge eligibility, U SPORTS does not consider eligibility to be consumed. The jurisdiction's definition of participation is respected as well. In those instances where the other jurisdiction provides a medical hardship waiver, or equivalent, U SPORTS will respect that waiver, however the student-athlete would remain subject to the traditional transfer rule if they attend a U SPORTS institution in the academic year immediately following the year he/she was provided the medical hardship waiver.

Note: Although non-Canadian jurisdictions may recognize a distinction between, for example, indoor and outdoor track & field, and freestyle and roman-greco wrestling, the U SPORTS recognizes all of these as equivalents to its related U SPORTS sport.

- 40.10.4.1.6 Participation which occurs exclusively within a club or community league involving a U SPORTS member in a U SPORTS recognized sport will not result in the charging of a year of eligibility.
- 40.10.4.1.7 Athletes participating and representing their institution in sport recognized by U SPORTS prior to August 15th will be considered to have participated in the academic year in which such participation occurred. Participation on or after August 15th will be considered as participation in the following academic year. Application, via email and a \$50 fee, can be made to the U SPORTS office to request participation between July 15 and August 15 to be considered and contributing to the following academic year.
- 40.10.4.1.8 An athlete who was not registered in the required number of courses for U SPORTS competition as per 40.10.3.3 in the fall semester (September-December), but who has registered for the required number of courses for U SPORTS competition as per 40.10.3.3 in the winter semester (January-April), shall be eligible to participate as of December 26 in that academic year.
