Should the President be the coach of a team that has qualified for the championship, the President will contact the U SPORTS Office to notify them of his designate.

4.2.2 SEEDING CRITERIA

1. The three (3) Sport Conference champions will be seeded 1st, 2nd, and 3rd based on their respective team national ranking in the final Top Ten of the season. The last Top 10 ranking will be done after the Sport Conference playoffs are completed.

3. The remaining 4 qualifying teams will be seeded using the final Top Ten of the season as a guiding tool.
4. Results of conference playoffs must be respected.

6. The Host may flip the brackets to ensure a local team plays at a preferred time to assist with ticket sales. However, the structure of the brackets must be maintained (i.e. 1 vs. 8 and 4 vs. 5 must always stay together and 2 vs. 7 and 3 vs. 6 must stay together) so that common rest times are protected and the integrity of the draw is maintained.
7. Without affecting the integrity of the draw, games in the upper half of the draw can be switched to accommodate travel and time zone adjustment (i.e. Canada West teams traveling East). If the teams playing are not impacted by the time zone change then there can be no switching of game times.

Should officials encounter a player who is not wearing an internal mouth guard, they are instructed to remove the player from the playing surface and that player cannot participate in the play until such time as he obtains an internal mouth guard. Should the player return without an internal mouth guard, or refuse to leave the ice when instructed to do so by the referee, he shall be assessed a 10-minute misconduct.

INTERMISSION

6.2 ICING THE PUCK

If the goaltender leaves his crease to play the puck, play shall continue and the 'icing the puck' rule shall not apply.

1. Should a player of a team equal or superior in numerical strength propel the puck in any manner (stick, glove, skate, body) from his own half of the ice to beyond the icing line of the opposing team – including off the boards or the protective glass – without the puck being touched by any player from either team in the offensive half of the ice before the puck crosses the icing line, an icing will be in effect.

September 2020

Playing Regulations: Men's Hockey

PR/8-6

2. There are two decisions a linesman must make under hybrid icing rules. First they must determine that the shot from a player's own side of centre ice will cross the icing line in the attacking zone. Second, they must determine whether a defending skater or attacking skater would be first to touch the puck.
3. This second decision must be made no later than the instant the first of the players reaches the end zone faceoff spots, although the decision can be made earlier. The skates of the skaters are the determining factor.
4. Should the puck be shot or propelled in such a way that it travels around the boards and slides back towards centre ice, the linesman will determine which player would be first to touch the puck. In this instance, the determining factor is not the end zone faceoff spots but the puck itself.
5. If there is no "race" for the puck, icing will be not called until a defending player crosses his defending blue line and the puck crosses the icing line.
6. If the race for the puck is too close to determine which player from which team would touch the puck first, icing will be called
7. During an icing situation where the icing has been cancelled because an attacking player has gained positional advantage, players must compete within the rules pertaining to physical contact.

6.2.1. Line changes on icing

1. A team that is in violation of the icing rule shall not be permitted to make any player substitutions prior to the ensuing face-off.
2. Should the stoppage of play following the icing infraction coincide with a commercial time-out, or should the offending team elect to utilize their team time-out at this stoppage of play, they are still not permitted to make any player substitutions. However, a team shall be permitted to make a player substitution to replace a goalkeeper who had been substituted for an extra attacker, to replace an injured player, or when a penalty has been assessed which affects the on-ice strength of either team.
3. The determination of players on ice will be made when the puck leaves the offending player's stick

6.3 COACH VIEWING

The head coaches and/or his assistant must be in close proximity of their respective players bench and in view of the ice during the pre-game warm-ups until the last team has left the ice.

Each team shall nominate two goalkeepers and five players by name and uniform number in the order they will take the shots, on the form handed over to them by the linesman. The lists submitted by the teams will be binding for the entire shoot-out competition.
3. Suspended players are not eligible for the shooting competition
4. The goalkeepers may be changed after each shot.
5. The team designated as the visiting team will shoot first in the shoot-out. Teams will take shots alternately.
6. If still tied after 5 shooters, move to a sudden victory format (same 5 shooters in same order) until a winner is declared.

11.2 VIDEO GOAL REVIEW

SITUATIONS SUBJECT TO REVIEW

Note- Only the ON-ICE Official and the Video Goal Judge may review a goal.

The following situations are subject to review by the Video Goal Judge:

1. Puck crossing the goal line.
2. Puck in the net prior to the goal frame being dislodged.
3. Puck in the net prior to, or after expiration of time at the end of the period.
4. Puck directed or batted into the net by a hand or foot or deliberately batted with any part of the attacking player's body.
 - With the use of a foot/skate, was a distinct kicking motion evident when the puck is in the crease? If so, the apparent goal must be disallowed. A DISTINCT KICKING MOTION is one which, with a pendulum motion, the player propels the puck with his skate into the net. If the

Video Goal Judge determines that it was put into the net by an attacking player using a distinct kicking motion when the puck is in the crease, it must be ruled NO GOAL. This would also be true even if the puck, after being kicked in the crease, deflects off any other player of either team and then into the net. This is still NO GOAL.

5. Puck deflected directly into the net off an Official.
6. Puck struck with a high-stick, above the height of the crossbar, by an attacking player prior to entering the goal. The determining factor is where the puck makes contact with the stick in relation to the crossbar. If the puck makes contact with the portion of the stick that is at or below the level of the crossbar and enters the goal, this goal shall be allowed.
7. To establish the correct time on the official game clock, provided the game time is visible on the Video Goal Judge's monitors.
8. The video review process shall be permitted to assist the referees in determining the legitimacy of all potential goals (e.g. to ensure they are "good hockey goals"). For example (but not limited to), pucks that enter the net by going through the net meshing, pucks that enter the net from underneath the net frame, etc.
9. The puck is hand passed to a teammate, in the offensive zone, who subsequently scores, or, the puck is high sticked to a teammate, in the offensive zone, who subsequently scores.

NOTE: The Video Goal Judge is able to review a hand pass or high stick in the attacking zone that results in a goal until one of the following situations occurs:

- a. The puck leaves the attacking zone by completely crossing the blue line into the neutral zone.
 - b. Any other player from either Club (except the player who received the hand pass or high stick) is able to control the puck with his stick, hand or skate.
 - c. If the player who received the puck on a hand pass or high stick, passes or shoots the puck and it is intentionally played by a teammate or opponent.
 - d. If the puck is batted or high sticked into the crease by an attacking player, no goal can be legally scored by an attacking player during a scramble for the puck in the crease. If a defending player clearly shoots the puck into his own net, the goal will be permitted. Once the puck is cleared out of the crease, it is now eligible to be shot legally into the net by an attacking player.
10. When a goal has been scored and the Video Goal Judge has conclusive video evidence that the puck hit the netting (therefore out of play) and went back onto the ice surface which was undetected by the on-ice officials, this goal shall not be allowed. If the puck subsequently leaves the attacking zone after hitting the net, this play is no longer reviewable by the Video Goal Judge.

11. The Video Goal Judge will notify the time keeper to sound the arena horn / buzzer to stop play on a situation where the puck has entered the net (which he has confirmed by video review) but has gone undetected by the on-ice officials, and play has continued. As this procedure will require some time for the Video Goal Judge to conclusively determine that a goal was scored, after the horn / buzzer sounds to stop play, the clock must be reset to the time when the puck completely crossed the goal line.

****IMPORTANT**** Under this new procedure, the VGJ will only instruct the timekeeper to sound the horn / buzzer (as play continues), if there is definitive video evidence that a goal was scored.
